Sequalize

Full Stack Developer with a focus on front-end development, currently seeking new challenges and opportunities to contribute to a dynamic team through my technical and creative skills. I stand out for my empathy, decision-making, and attention to detail, which enable me to develop intuitive, user-centered products that optimize both functionality and user experience.

EDUCATION

Full Stack Web Developer. Henry.

Online Bootcamp +800 hours based on hands-on practice and real projects.

Next.js. Udemy.

Next.js, the React framework for production.

EXPERIENCE:

WEB FULL STACK PROGRAMMING COURSE TUTOR. TANDIL TECHNOLOGY CLUSTER MARCH 2024 - PRESENT.

Responsible for guiding students in their learning, resolving doubts, supervising projects, and reviewing assignments. Experienced in fostering the development of technical skills, logical thinking, and teamwork, providing personalized support and constructive feedback.

FULL STACK DEVELOPER. PROJECT MANAGEMENT OCTOBER 2024 - DECEMBER 2024.

Development of a web platform using React, React-Bootstrap, and CSS for the frontend, Express.js for the backend, and an SQL database. Authentication was implemented with JWT and bcrypt. The system allows project and task management based on user roles: administrators can create, edit, delete, and assign projects and tasks, as well as view all activities; non-admin users only manage their assigned tasks and projects, with the ability to update the status of tasks.

FRONT END DEVELOPER. MSC (E-COMMERCE). MSC AMOBLAMIENTOS OCTOBER 2023 - DECEMBER 2023

I led the creation of a modern and functional interface for the project, using React, Redux, CSS, and Bootstrap. With a user-centered approach, I implemented innovative solutions to enhance both the experience and aesthetics of the platform. I achieved an elegant interface by applying design techniques and collaborating closely with the team to maintain consistency.
